CAS 2025 AND BEYOND

As summarized in the tables below, the college will pursue these goals through tailored strategies that will produce transformative outcomes. The expectations listed below are the anticipated changes that the college will realize through the implementation of these initiatives. Metrics are the quantifiable measures that the college will utilize to assess annual progress through 2025. The unit primarily responsible for implementing each strategy is designated in **bold**, along with the college and campus partners who are critical to the success of each initiative. Acronyms and initialisms are defined in Appendix.

The college's strategic plan is organized by years 1, 2–3, and 4–5 as indicated in each section. This structure was chosen to communicate the fact that each one of our aims is a priority. Realizing our vision for the college requires that we lay the necessary foundations in the first few years of this plan, sustain our momentum within each aim, and build upon our successes over the next five years. We will hold ourselves accountable for making measurable progress toward achieving our vision and strategic goals at the end of each academic year. We will reassess and recalibrate our strategies and metrics on a regular basis to ensure that our strategic plan adapts to changes and responds to new opportunities over time.
